

SYNTHETIC DATA FOR TEACHING — NOT A REAL STUDY. Patients, investigators and institution are fictional.

This demonstration manuscript was written by AI (Claude Opus 5.5). In a real submission, the text must be written by the authors.

Type of manuscript: Original Article

Title: Neoadjuvant Chemotherapy with Trastuzumab plus Pertuzumab versus Trastuzumab Alone in Early HER2-Positive Breast Cancer: A Single-Center Retrospective Cohort Study

Running title: Neoadjuvant dual HER2 blockade in routine practice

Authors

1. Yi-Chun Chen, MD — Attending Physician; Division of Medical Oncology, Formosa Demonstration Cancer Hospital (fictional), Taipei, Taiwan
2. Chia-Hao Chang, MD — Attending Surgeon; Department of Breast Surgery, Formosa Demonstration Cancer Hospital (fictional), Taipei, Taiwan
3. Shu-Fen Huang, MS — Biostatistician; Clinical Research Center, Formosa Demonstration Cancer Hospital (fictional), Taipei, Taiwan

Counts: total pages of the article file, 18; figures, 3; tables, 3; words in abstract, 222; words in text (excluding abstract, references and tables), 1917; words in introduction + discussion, 728.

Source(s) of support: None.

Acknowledgements: The authors thank the hospital information office for data extraction and verification (fictional).

Presentation at a meeting: None.

Clinical trial registration: Not applicable (retrospective cohort study).

Ethics approval: The study was approved by the institutional review board (DEMO-2026-0412; approved November 16, 2026; amendment approved December 7, 2026) with a waiver of informed consent.

Conflicts of interest: The authors declare no conflicts of interest.

Author contributions: Yi-Chun Chen: concept, design, definition of intellectual content, literature search, data acquisition, manuscript preparation; Chia-Hao Chang: clinical studies, data acquisition, manuscript review; Shu-Fen Huang: design, data analysis, statistical analysis, manuscript editing. Guarantor: Yi-Chun Chen.

Statement: The manuscript has been read and approved by all the authors, the requirements for authorship have been met, and each author believes that the manuscript represents honest work.
